

Greenville Mainstreet Initiative

New decorative street lighting!

These new light poles are part of a broad initiative to enhance the streets and public spaces of our hamlet. The Committee is also creating a program to add benches, planters and banner signs, along with other lighting enhancements to the intersection of Routes 32 and 81

About the decorative light poles...

The Mainstreet Initiative decorative light poles feature a black matte finish with historic ornamental metalwork. The light pole's lamp hood complies with Greenville's dark skies initiative (as per the master plan) and incorporates an innovative design that minimizes cleaning and maintenance needs. Each decorative pole includes arms for banners and flower baskets.

The donation amount for a decorative light pole is \$2,500. This includes a donor plaque affixed to the pole.

About the flower planters...

The Mainstreet Initiative flower planters are cast in durable concrete with a brown weatherstone pebble finish. Each planter is a generous 36 inches in diameter and 24 inches in height, ensuring that they will stand out from their surroundings. Street planters provide a venue for adding some color to
